Profile

Machine learning and software engineer with experience in language model evaluation, equity prediction, and data pipelines. Two master's degrees from NTNU in Computer Science (AI) and Industrial Economics and Technology Management; co-author of a NeurIPS 2024 paper.

Technical Skills

Machine Learning: PyTorch, TensorFlow/Keras, scikit-learn, PyTorch Lightning, MLflow, Optuna

Languages & Data: Python, SQL, pandas, NumPy, PostgreSQL, Databricks, Snowflake

Software Engineering: Flask, Django, REST APIs, SQLAlchemy, Git, Kubernetes; JavaScript, C#, Bash

Experience

Founder, FATI Technologies – Bergen, Norway Aug 2025 – Present
Developing quantitative models and research pipelines for systematic investing.

Software Engineer & Data Integration Lead, Whitson – Houston, TX Aug 2024 – Jun 2025
- Built features for a Flask, Vue 2, and PostgreSQL SaaS platform for industrial operations.
- Designed and shipped customer data integrations with Databricks, Snowflake, and remote databases; supported onboarding and integration troubleshooting.

Research Assistant, NorwAI – Trondheim Aug 2023 – Apr 2024
Contributed to data curation and benchmarking for NorGPT, a Norwegian large language model.

Summer Intern, Norges Bank Investment Management – Oslo Jun 2023 – Aug 2023
- Built machine learning models for short-term equity prediction in systematic investing.
- Worked on model robustness and performance for live equity strategies.

Method & Full Stack Developer, Wiseline AS – Trondheim Sep 2022 – Aug 2023
Developed React/Django/PostgreSQL analytics tools for optimizing electric grid inspections.

Selected Publication

Co-author, PersonalSum: A User-Subjective Guided Personalized Summarization Dataset for Large Language Models. NeurIPS 2024, Datasets and Benchmarks Track.

Education

MSc Industrial Economics and Technology Management, NTNU Aug 2019 – Jun 2024
Strategy and International Business; minor in Computer Science. Thesis on responsible AI innovation.

MSc Computer Science, NTNU Aug 2017 – Jun 2023
Specialization in Artificial Intelligence. Thesis: *Prompting Generative Models for Named Entity Recognition using Language and Visuals*; nominated for best AI thesis.

Exchange: EPFL, Switzerland (2021–2022); Sapienza University of Rome, Italy (2022).

Earlier Internships

Customer Success Intern, Cognite – Oslo Jun 2021 – Aug 2021
Contributed to customer onboarding and technical consulting for a DataOps platform.

Developer Intern, Mnemonic AS – Oslo Jun 2020 – Jul 2020
Created Python pipelines and data-streaming tools for cybersecurity insights.

Developer Intern, Buypass AS – Oslo Jun 2019 – Aug 2019
Built a FIDO2 passwordless authentication demo in Java/JavaScript, with backend services and CI/CD.

Teaching and Leadership

Teaching Assistant, NTNU – Trondheim Aug 2019 – Apr 2024
Taught and graded coursework in AI Methods, Data Science, NLP, Cognitive Architectures, Programming, Networks, and Managerial Economics.

Chairman, ISFiT Foundation – Trondheim Jun 2021 – Jun 2023
Oversaw strategic governance and continuity for an international student festival with approximately 500 volunteers.

Board Member & Section Lead, ISFiT 2021 – Trondheim Sep 2019 – Jun 2021
Led five teams covering Finance, IT, HR, Events, and Economics.

Chief of Software, Revolve NTNU – Trondheim May 2019 – Jun 2020
Led six developers building telemetry systems for electric and autonomous Formula Student cars.
